

PATENT IDEA CONTEST (KCT-PiC)

#16 of A52

Kumaraguru College of technology is organizing KCT-Patent idea Contest “KCT-PiC” exclusively for KCTians to encourage and drive innovation & Intellectual Property (IP) related activities at the collegiate level. The Contest brings together the KCT’s brightest young minds to: showcase, recognize, and award their cutting-edge research and innovative ideas.

PATENT AND ITS SIGNIFICANCE

- Patent is the important category in Intellectual Property Rights (IPR).
- A patent gives you the right to stop others from copying, manufacturing, selling or importing your invention without your permission.
- Patent protects your inventions for pre-determined period.
- You can license your patent for others to use it, or sell it, as with any asset.
- You can earn royalty for your patent.

KCT helps transform intellectual ideas into profitable business models and facilitates for patent filing of finalist free of charge.
